Sir

Re constructing Masonry out-fall drain in Saklespur Town Municipality

---

I have the honor to state that the Sanitary Engineer has prepared an estimate for Rs 2080/- for constructing a Masonry outfall drain in Saklespur Town as it was observed by the Asst Sanitary Engineer No 3 Sub Division Hassan during Joint Inspection that there was a lot of stagnation of sullage waber at the end of the out-fall drain It is proposed to lead off this sullage water by constructing a masonry out-fall drain

The Municipal Council has resolved at its meeting held on 30-10-44 agreeing to bear the cost of the estimate the remaining half being met out by Government The expenditure is proposed to be met out of the closing balance as there is no provision in the buget for this purpose

As this work forms part of the drainage work I request that sanction of Govt may kindly be obtained to the resolution of the Municipal Council to meet this cost out of the closing balance of the current year and to a grant of Rs 1040/- out of Town Improvement grant

A copy of the resolution of the Municipal Council together with the plan and estimate countersigned by the
